

## South Central Public Health Partnership

### TRAINING PROFESSIONALS TO PROTECT THE PUBLIC

<http://lms.southcentralpartnership.org/scphp>

We are currently experiencing technical issues with some of our older courses. We are in the process of resolving this issue, but we do not anticipate a solution for several weeks. The following is a list of the courses affected by this issue:

- Applied Epidemiology of Terrorist Events
- Chemical Terrorism Clinical Specimen Transport
- Collaboration: The Key to Public Health System Improvement
- Counterterrorism Incident Command
- Crisis Communication for Hospital Administrators
- Defense Against the Radiological Threat
- Epi-Ready: Foodborne Illness Response Strategies
- Essentials of Designing and Evaluating Exercises and Drills to Enhance Public Health Emergency Preparedness
- Food as an Effective Weapon of Terrorism
- Guidelines and Standards for a WMD Response
- Homeland Security: Defining Directives, Organization and Policies
- Implementing the National Strategy for Pandemic Influenza
- Introduction to Disease Detection and Investigation
- Planning and Execution for Disaster Response
- Planning, Implementation and Exploitation of a Field Exercise
- Preparedness, Public Health Policy and Law
- Preparing for a Chemical Terrorist Event
- Public Health Preparedness and Leadership
- Risk Communication in Public Health Emergencies
- Terrorism, Risk Assessment and Homeland Defense
- The Terrorist Threat to Global Agriculture, Food and Water Supplies
- Understanding Emergency Public Health Risk Communication: Partners & Preparedness beyond the Public Health System
- Understanding Emergency Public Health Risk Communication: Resources & Relationships Within the Public Health System
- Understanding Emergency Public Health Risk Communication: Working With & Through the Mass Media to Reach the People
- Using Risk Assessment in Chemical Emergencies to Protect Public Health
